Technology
Greater Noida, India · 2012 – 2016

CERTIFICATION

Microsoft Certified

Azure Developer Associate
Microsoft · 2022

Profile

Full-stack engineer with **9+ years** building enterprise-grade **.NET** platforms across **ERP and retail**. I own features end to end — from requirements and architecture to delivery through CI/CD — and I'm as comfortable in front of clients as I am in the codebase, including on-site work in **Oslo, Norway**. Known for mentoring developers and shipping reliable software in Agile teams.

Experience

Senior Full-Stack Developer · Associate II

Mar 2023 – Present

CG Infinity India — Noida, India

- Build new functionality across web, desktop and service applications on the .NET stack.
- Partner with front-end, back-end, QA and the CTO to turn business goals into shipped software.
- Lead R&D and migrations of core logic; deliver through Docker and Azure CI/CD pipelines.
- Safeguard reliability with unit and integration testing and disciplined debugging in an Agile/Scrum team.

Full-Stack Developer

Jul 2016 – Mar 2023

Data Nova India Pvt. Ltd. — India

- Built ERP and retail software across web and mobile platforms.
- Developed full-stack applications that processed, analyzed and visualized data.
- Managed time-sensitive releases — content changes and database upgrades — with precision.
- Planned, wrote and debugged applications end to end and led business-logic migrations.
